

Receive the Care You Deserve

We provide the care you deserve through advanced therapeutic equipment, progressive rehabilitation techniques, skilled therapists and an individual approach designed to improve your health and restore your independence.

Our healthcare team works with you to create an individualized treatment plan that best suits your goals and conditions. We do this through:

- Safe, non-invasive and medication-free treatments
- Advanced rehabilitation techniques / modalities supported by scientific research and years of development
- Specialized treatment programs designed to help individuals return to the activities they enjoyed with a higher level of independence and safety

A Program Designed for You

Our programs were developed with the unique needs of each individual in mind to help promote comfort, independence and recovery. Our goal is to help you manage your pain, enhance your healing process and increase your overall strength and endurance. The programs address a range of common conditions including the following:

- Carpal Tunnel Syndrome
- Peripheral Neuropathy
- Urinary Incontinence
- Stroke Symptoms
- Wound Care
- Fall Prevention
- Rheumatoid and Osteoarthritis
- Knee and Hip Replacement / Post-Fracture Care
- Orthopedic Rehabilitation

You Are What Matters Most

Our specialized treatment programs are an important example of our commitment to quality care. We provide advanced rehabilitation modalities and training for our therapists to help you achieve your goals. You are what matters most.
